

# STEPHEN ENIOLA OMOTOSO

Lagos, Nigeria | +234-814-026-1025 | [stephenomotoso22@gmail.com](mailto:stephenomotoso22@gmail.com)

## PROFILE

Full-Stack Engineer with practical experience in building responsive, user-focused applications and APIs using React.js, Next.js, Laravel and modern tools like Figma. Contributed to fintech and enterprise projects by developing reusable components and translating design wireframes into quality interfaces. Proven ability to work both collaboratively and independently, delivering clean, maintainable code while continuously learning new technologies.

## WORK EXPERIENCE

### Rick Development Company | *Software Developer Intern* Feb 2025 - Present

- Collaborated with senior engineers to develop core backend features of a fintech application built with Laravel.
- Integrated third-party payment services such as Flutterwave, Payscribe, and Safe Haven Microfinance Bank APIs, enabling real-time transaction handling.
- Contributed to the design and implementation of a secure user authentication system using Laravel Sanctum.
- Participated in backend architecture planning using service-oriented architecture (SOA).
- Improved transaction response time by optimizing database queries and asynchronous job processing.
- Wrote clean, reusable code and maintained documentation for API endpoints.

### Upperlink Limited | *Software Development Intern* May 2024 - Sep 2024

- Worked across the full stack using Laravel, Angular, and React to build and maintain enterprise web applications.
- Contributed to the frontend UI/UX implementation for client dashboards and backend services like user management and invoicing systems.
- Collaborated in an Agile environment, regularly attending sprint meetings and efficiently managing version control with Git and GitHub.
- Implemented validation and security for forms and API endpoints using Laravel and Angular best practices.
- Handled feature bug fixes and participated in peer code reviews.

### HNG Internship Program (HNG10) | *Frontend Developer Intern* May 2024 - Aug 2024

- Developed and contributed to team projects using React.js, Next.js, and Supabase for backend services, translating wireframes and Figma designs into quality user-facing features.
- Implemented responsive and data-driven UI components while building reusable React components to enhance platform consistency and maintainability.
- Applied modern JavaScript (ES6+), HTML5, and CSS3 best practices to create scalable, high-performance web applications.
- Collaborated in a fast-paced, Agile environment by engaging in peer code reviews and debugging issues to ensure efficient development cycles.

## PROJECTS

### Fintech Wallet System (Rick Dev Co.) | *Rick Dev Co.*

- Built secure backend services with Laravel for wallet funding, withdrawal, and balance management.
- Integrated external APIs for payment processing and webhook-based transaction tracking.

### HR and Employee Dashboard (Upperlink) | *Upperlink*

- Contributed to Angular-based frontend and Laravel backend. Built modules for employee leave requests and internal communication.

### Hotel Booking Web Application

- Collaborated on a hotel management web app with React/Next.js.
- Used Supabase for real-time database and auth.

## SKILLS

- **Backend:** PHP (Laravel), Node.js, RESTful APIs, MySQL, PostgreSQL, Supabase
- **Frontend:** JavaScript (ES6+), React.js, Angular, Next.js, HTML5, CSS3, TailwindCSS
- **Tools & Services:** Git, GitHub, Docker (basic), Postman, Figma, Firebase
- **Other Skills:** Agile/Scrum, API documentation, Debugging & testing, Third-party integrations (e.g. Flutterwave, Payscribe)

## CERTIFICATIONS & PROGRAMS

- HNG Internship Program (HNGx), 2024
- JavaScript & React Fundamentals – FreeCodeCamp (2021)
- **Laravel for Beginners to Advanced - Udemy**

## LANGUAGES

- English (Fluent)
